CONNECTING INDUSTRIAL PROFESSIONALS

ING + Manufacturers = A Great Partnership!

If you work for a manufacturer, then you have come to the right place. The ING is here to fully support manufacturers throughout the United States.

With 300+ Members in 10 states (and counting), the ING has become a valuable resource to manufacturing plants, facilities, and sales professionals.

It doesn't matter what your needs are (roofing, flooring, landscaping, janitorial, equipment moving or installation, electrical services, parts, chemicals, and much, much more), the ING will take care of you.

Please click or visit the link below to submit your request to the ING.

Why should a manufacturer join the ING?

- **IT'S FREE.** Yes, it's free for a manufacturer to join, but that really isn't the primary reason for joining.
- **FREE ACCESS TO ALL FUEL MEETINGS.** FUEL is a local chapter monthly meeting where you invest in your relationships. All you pay for as a manufacturer is your lunch. Come and meet the people you want to develop relationships with, and learn about how they can help your business.
- **QUARTERLY OR ANNUAL ONSITE MEETING** with targeted ING members (subcontractors).
- **VIRTUAL MEETINGS** with specific ING members as desired, or needed.

As a Manufacturer member, you'll receive monthly updates of our newest members and their capabilities.

Testimonials from our members

**DONALD,
CHARLESTON, SC**

"...after that (first luncheon), meeting the group of individuals at the luncheon, and listening and learning the purpose of ING, I saw where ING could be a valuable resource to me, introducing me to potential contractors and vendors. Since that time, ING has been able to recommend me to a number of vendors to meet the needs of the company I was representing on various projects."

**KELLY,
ST. PAUL, MN**

"Starting a chapter for the ING has been not only a great tool to learn more about the industries in my area but has been a great way to connect with like-minded, inspiring individuals. As we continue to grow, we are forming a great team that will have an outstanding impact on our area."

We currently have ING Chapters located in:

Georgia, North Carolina, South Carolina, Texas, Michigan, Minnesota, Florida, Alabama, Illinois, Tennessee

We continue to grow and open new chapters!

If you're interested in opening an ING chapter, please send an email to Chris@IndustrialNetworkGroup.com
